

**Cabinet Resolution No. (12) of 2021**  
**Regarding the Fees for Services Provided by the Ministry of Energy and**  
**Infrastructure**

**The Cabinet:**

- Having reviewed the Constitution;
- Federal Law No. (1) of 1972 Regarding the Competences of Ministries and the Powers of Ministers, as amended;
- Federal Law No. (26) of 1981 Regarding the Maritime Commercial Law, as amended;
- Federal Law No. (9) of 2011 Regarding Land Transportation, as amended;
- Federal Law No. (14) of 2016 Regarding the Administrative Violations and Penalties in the Federal Government;
- Federal Law No. (14) of 2017 Regarding Petroleum Products Trading;
- Federal Decree by Law No. (26) of 2019 Regarding Public Finance;
- Cabinet Resolution No. (27) of 2005 Regarding the Fees for Services Provided by the Maritime Affairs Department at the Ministry of Transport;
- Cabinet Resolution No. (17) of 2010 Regarding the Regulation of the Use and Exploitation of Federal Roads and Facilities;
- Cabinet Resolution No. (28) of 2012 Regarding the Federal Fees and Fines for Land Transport Sector Services in the State;
- Cabinet Resolution No. (7) of 2013 Regarding the Fees for the Sale of Geological Reports, Publications, and Maps;
- Cabinet Resolution No. (4) of 2015 Regarding the Fees for Services Provided by the Ministry of Infrastructure Development, as amended; and
- Upon the proposal of the Minister of Finance and the approval of the Cabinet,

**Hereby resolves as follows:**

## Article (1)

### Definitions

For the purposes of implementing the provisions of this Resolution, the following terms and expressions shall have the meanings assigned to each of them, unless the context requires otherwise:

- State** : The United Arab Emirates.
- Ministry** : The Ministry of Energy and Infrastructure.
- Minister** : The Minister of Energy and Infrastructure.
- Laboratory** : The laboratory affiliated with the Ministry that is competent to examine construction materials.
- Register** : Any register established at the Ministry in which the data of soil investigation contractors, consultants, contractors, or suppliers for construction works are recorded.
- Federal Roads and Facilities** : The roads and facilities subject to the provisions of this Resolution, as determined by a decision to be issued by the Minister.
- Operating License** : A license issued by the Ministry to carry out land transport activity.
- Operating Card** : A document issued by the Ministry by which a land transport vehicle is authorized to work in the field of the licensed activity in the State.
- Automobile and Touring Clubs** : The authority accredited in the State to provide public services to vehicle owners, such as issuing Carnets de Passages en Douane (CPD) for private vehicles and International Driving Licenses (IDL).

- International Land Transport** : Any road transport of persons or goods from the State to outside the State or vice versa, using licensed land transport vehicles for consideration.
- Guarantor** : The authority established in the State in accordance with the provisions of Federal Law No. (9) of 2011 Regarding Land Transportation, which guarantees the payment of fees and taxes applicable to national and foreign carriers under land transport cards issued thereby or by any similar authority in another country.
- Local Agent** : The natural or legal person appointed by the international transport or shipping company to represent it in all matters related to the obligations and procedures applicable to land transport within the State.

## **Article (2)**

### **Service Fees**

1. The fees specified opposite each service shall be collected in consideration of the services provided by the Ministry as set out in Schedules Nos. (1), (2), (3), (6), and (7) attached to this Resolution.
2. A fee of AED (6.5) per ton of the gross tonnage of the ship shall be collected for the transfer of ownership of a national commercial ship, provided that the maximum fee shall not exceed (ten thousand Dirhams) and the minimum fee shall not be less than (200) Dirhams.
3. A fee of (6.5) Dirhams per (ton) of the gross tonnage of the ship shall be collected for the issuance of a license for a pleasure ship owned by a foreigner. Besides, a renewal fee of AED (3) shall also be collected for each ton of the gross tonnage of the ship, provided that the fee shall not be less than (500) Dirhams.

4. Upon the issuance of each navigation license for a foreign ship working in the territorial waters of the State, a fee of AED (7) shall be collected for each ton of the recorded gross tonnage of the ship. Upon the extension of this license for a period not exceeding one year, a fee of AED (5) shall be collected for each ton of the recorded gross tonnage of the ship, provided that the maximum fee is (150,000) Dirhams and shall not be less than (500) Dirhams.
5. Repealed pursuant to Cabinet Resolution No. (76) of 2022.
6. Repealed pursuant to Cabinet Resolution No. (76) of 2022.
7. The service fees set out in items (204) to (268) shall not include packaging, shipping or customs expenses.

### **Article (3)**

#### **Administrative Penalties and Violations**

1. The Ministry shall collect the administrative fines stipulated in Table No. (4) attached to this Resolution.
2. The Ministry shall collect the administrative fines stipulated in Table No. (5) attached to this Resolution for road encroachments and damages resulting from accidents and violations on federal roads.
3. The Ministry shall collect the following administrative fines:
  - a. An administrative fine of AED (100) one hundred Dirhams shall be imposed on soil investigation contractors for each year of delay in renewing registration at the Register.
  - b. An administrative fine of AED (500) five hundred Dirhams shall be imposed on consultants, contractors, and suppliers of construction works for each year of delay in renewing registration at the Register.
  - c. The fines aforementioned in Paragraphs (a) and (b) of this Article shall be collected, in addition to the fees for renewal of registration in the Register as shown in the Schedule annexed to this Resolution, provided that such fines shall not exceed three years.

Where registration is not renewed for a period exceeding that, the registration shall be cancelled from the Register.

- d. For the purposes of calculating the fines stipulated in Paragraphs (a) and (b) of this Article, a part of a year shall be deemed a full year.
  - e. An administrative fine shall be imposed if a pleasure ship license (for a national or a foreigner) is not renewed within (60) sixty days from the expiry date, at a rate of (50) Dirhams per month of delay or part thereof, provided that the maximum fine shall be (200) Dirhams.
  - f. An administrative fine shall be imposed if a navigation license for a national commercial ship is not renewed within (60) sixty days from the expiry date, at a rate of (100) Dirhams per month of delay or part thereof, provided that the maximum fine shall be (1000) Dirhams.
  - g. An administrative fine shall be imposed if the minimum safe manning certificate of a national commercial ship is not renewed within (60) sixty days from the expiry date, at a rate of (50) Dirhams per month of delay or part thereof, provided that the maximum fine shall be (300) Dirhams.
  - h. An administrative fine shall be imposed where the license to work on a ship is not renewed within (60) sixty days from the expiry date, at a rate of (50) Dirhams per month of delay or part thereof, provided that the maximum fine shall be (200) Dirhams.
4. Any interested party may submit a written grievance to the Ministry against any of the aforementioned administrative fines in this Resolution that is imposed on them within (15) fifteen days from the date of notification of the contested decision, provided that the grievance shall be justified, and all supporting documents are attached thereto. The Grievance shall be decided upon within (30) thirty days from the date of submission pursuant to procedures applicable in the Ministry.

## **Article (4)**

### **Amendments of Fees and Fines**

The Cabinet shall be vested with the competence to make any amendments to the administrative fees and fines stipulated in this Resolution, whether by addition, deletion, or modification.

## **Article (5)**

### **Collection of Fees and Fines**

Fees and fines stipulated in this Resolution shall be collected through the means determined by the Ministry of Finance.

## **Article (6)**

### **Bank Guarantee**

Each of the Guarantor and Automobile and Touring Clubs shall provide a bank guarantee of one million Dirhams in the name of the Ministry issued by one of the banks working in the State upon the issuance of a license to practice the activity of issuing Carnet de Passages en Douane (CPD) for private vehicles, International Driving License (IDL), and transit cards for trucks and passenger buses. The bank guarantee shall be valid for an unlimited period, and it shall not be returned to the license holder except after the lapse of (90) days as of the cancellation date of the license.

## **Article (7)**

### **Costs of Designing and Constructing Access Points for Private Investment Projects**

The Ministry shall collect the costs of designing and constructing any permanent access points for private investment projects on federal roads from the entities owning such projects, in addition to administrative, supervisory, and maintenance expenses of (10%) of the cost value.

Coordination shall be made between the Ministry and the Ministry of Finance to determine the mechanism for the collection of such costs from the entities owning such projects and the method to pay the dues of the entities undertaking the design and construction works.

## **Article (8)**

### **Regulation of the Utilization of Federal Roads and Facilities**

The Ministry shall have the exclusive right to utilize Federal Roads and Facilities pursuant to the provisions stipulated in this Resolution. The Ministry shall also be entitled to designate the right-of-way in accordance with the controls issued by the Minister in this respect.

## **Article (9)**

1. Without prejudice to the competencies legally assigned to any other federal entity, the Ministry shall be competent for the following:
  - a. Estimating the extent of damages and violations arising due to traffic accidents and encroachments on federal roads and determining the cost of repairing them.
  - b. Determining the costs of removing and remedying the violations and encroachments that are not removed or remedied by the violators in the manner deemed appropriate by the Ministry.
  - c. Performing necessary repairs to remedy the impacts of traffic accidents and encroachments.
  - d. Removing the committed violations if the same are not removed within the period designated by the Ministry.
2. The Ministry shall notify the responsible parties and the violators of the provisions of this resolution to pay the cost of the above-mentioned repair and removal works, in addition to 15% as administrative and supervisory expenses, and these shall be remitted to the public treasury of the State.
3. The Minister or their delegate shall consider the grievance petitions submitted to the Ministry with respect to the stipulation of Paragraph (1) of this Article, provided that the

suitable way to accept such grievances shall be determined within a month from the date of notifying the responsible parties and the violators to pay the cost of repair and removal. The decisions of the Minister or their delegate shall be final for the grievances submitted thereto in this respect.

### **Article (10)**

Entities that are authorized to work at the right-of-way of the Federal Roads and Facilities shall provide financial guarantees determined by the Ministry as a guarantee of their compliance with the technical and legal specifications of roads and the repair of any damages that may be caused to the road or its appurtenances. This shall be done by either of the following:

- a. Providing guarantees in the form of amounts of money to be deposited in cash at bank accounts determined by the Ministry of Finance for this purpose.
- b. Providing bank guarantee letters issued by one of the banks working in the State, provided that such letters shall be unconditional, irrevocable, and of the same amounts. This shall be pursuant to the rules determined by the Ministry in coordination with the Ministry of Finance.

### **Article (11)**

1. The Ministry may collect fees for the placement of advertisements and advertising means on Federal Roads and Facilities, provided that such fees shall be in coordination with the Ministry of Finance and in accordance with the controls and executive regulation of this Resolution. A Cabinet resolution shall be issued regarding these fees based on the proposal of the Minister of Finance.
2. The Ministry shall be entitled to conclude contracts with specialized companies and institutions to grant them the right to exploit the Federal Roads and Facilities through advertisements and media in accordance with the tendering or auction systems applicable in the Federal Government.

### **Article (12)**

The Ministry may collect fees for the use of Federal Roads and Facilities after coordination with the Ministry of Finance and Ministry of Interior. The Cabinet shall issue a resolution regarding such fees and the dates of their collection based on the proposal of the Minister of Finance.

### **Article (13)**

The Ministry may determine the speeds allowed on the federal roads and the locations for installing radars thereon, in coordination with the Ministry of Interior, provided that all revenues generated from radars fixed on federal roads shall accrue to the public treasury of the State.

### **Article (14)**

#### **Final Provisions**

The Ministry's employees designated by a decision of the Minister of Justice in agreement with the Minister shall have the capacity of judicial enforcement officers to detect and record violations subject to the provisions of this Resolution and the regulations and controls issued in implementation hereof within the scope of their respective competencies.

### **Article (15)**

#### **Executive Resolutions**

1. The Minister shall issue the Resolutions necessary for the implementation of the provisions of this Resolution.
2. The Minister shall designate the Federal Roads and Facilities on which this Resolution shall be applicable.

## **Article (16)**

### **Repeals**

1. The following resolutions shall be repealed:
  - a. Cabinet Resolution No. (27) of 2005 Regarding the Fees for Services Provided by the Maritime Affairs Department at the Ministry of Transport.
  - b. Cabinet Resolution No. (17) of 2010 Regarding the Regulation of the Use and Exploitation of Federal Roads and Facilities.
  - c. Cabinet Resolution No. (28) of 2012 Regarding the Federal Fees and Fines for Land Transport Sector Services in the State.
  - d. Cabinet Resolution No. (7) of 2013 Regarding the Fees for the Sale of Geological and Geophysical Reports, Publications and Maps.
  - e. Cabinet Resolution No. (4) of 2015 Regarding the Fees for Services Provided by the Ministry of Infrastructure Development, as amended.
  - f. Minister of Finance Resolution No. (268) of 2006.
  - g. Minister of Finance Resolution No. (108) of 2007.
2. Any provision that contradicts or conflicts with this Resolution shall be repealed.

## **Article (17)**

### **Publication and Entry into Force**

This Resolution shall be published in the Official Gazette and shall enter into force as of the day following the date of its publication.

**Mohamed Bin Rashid Al Maktoum**

**Prime Minister**

Corresponding To: 24 January 2021 A.D.

**Schedule No. (1) Annexed to Cabinet Resolution No. (12) of 2021 Regarding  
the Fees for Services Provided by the Ministry of Energy and Infrastructure**

| SN.                                      | Service Description   | Service Fees<br>(AED) |
|--|---|-----------------------|
| <b>A. Laboratory Tests and Analyses:</b> |   |                       |
| <b>Aggregates</b>                        |   |                       |
| 1  | Sieve analysis test-dry.  | 170                   |
| 2  | Sieve analysis test-wet.  | 130                   |
| 3  | Determination of fine content (dust and silt) –<br>Sedimentation. | 75                    |
| 4  | Determination of fine content (dust and silt) – washing.          | 80                    |
| 5  | Determination of elongation index.                                | 130                   |
| 6  | Determination of flakiness index (thickness).                     | 100                   |
| 7  | Angularity Test.  | 120                   |
| 8  | Determination of relative density.                                | 110                   |
| 9  | Determination of bulk density – Compacted.                        | 60                    |
| 10                                       | Determination of bulk density – Loose.                            | 50                    |
| 11                                       | Moisture content test.  | 30                    |
| 12                                       | Determination of percentage of water absorption.                  | 50                    |
| 13                                       | Soundness test for aggregates.                                    | 350                   |
| 14                                       | Aggregate Crushing Value Test (ACV) - Dry.                        | 120                   |
| 15                                       | Ten Percent Fines Value (TFV) Test.                               | 120                   |
| 16                                       | Aggregate Impact Value (AIV) Test                                 | 90                    |
| 17                                       | Los Angeles Test.   | 250                   |
| 18                                       | Sulfate content test by acid extraction.                          | 160                   |

|                      |   |                  |
|----------------------|---|------------------|
| 19                   | Chloride content test by acid extraction.   | 140              |
| 20                   | Organic impurities test in fine aggregate.  | 70               |
| 21                   | Determination of the percentage of shells in marine sand.                                 | 70               |
| 22                   | Fully crushed aggregate surfaces test.  | 150              |
| 23                   | Partially Crushed Aggregate Surfaces Test.  | 150              |
| 24                   | Determination of the percentage of water-soluble Sulfate.                                 | 70               |
| 25                   | Determination of the percentage of water-soluble chloride.                                | 70               |
| 26                   | Alkaline reactivity test.   | 300              |
| <b>Concrete Cube</b> |   |                  |
| 27                   | Compressive strength test.  | 15               |
| 28                   | Oven-dry density test of concrete cube.   | 50               |
| 29                   | Density test of water-saturated and surface-dried concrete cube.                          | 30               |
| 30                   | Determination of the correlation between compressive strength and Schmidt Hammer reading. | 100              |
| 31                   | Initial Surface Absorption Test (ISAT).   | 150              |
| 32                   | Water absorption test of concrete for half an hour.                                       | 200              |
| 33                   | Water permeability test for concrete.   | 200              |
| 34                   | Chloride permeability test for concrete.  | 500              |
| 35                   | Curing of cubes in the laboratory for (7) days.   | 5 for each cube  |
| 36                   | Curing of cubes in the laboratory for (28) days.  | 10 for each cube |
| <b>Concrete Core</b> |   |                  |

|                        |   |     |
|------------------------|---|-----|
| 37                     | Coring of (50) mm diameter through the concrete core sample at the construction site. | 700 |
| 38                     | Coring (75) mm diameter through the concrete core sample at the construction site.    | 750 |
| 39                     | Coring (100) mm diameter through the concrete core sample at the construction site.   | 850 |
| 40                     | Coring (150) mm diameter through the concrete core sample at the construction site.   | 850 |
| 41                     | Coring (50) mm diameter through the concrete core sample at the laboratory.           | 120 |
| 42                     | Coring (75) mm diameter through the concrete core sample at the laboratory.           | 140 |
| 43                     | Coring (100) mm diameter through the concrete core sample at the laboratory.          | 170 |
| 44                     | Coring (150) mm diameter through the concrete core sample at the laboratory.          | 230 |
| 45                     | Determination of water absorption percentage.   | 80  |
| 46                     | Compressive strength test of concrete core.   | 100 |
| <b>Pillar</b>          |   |     |
| 47                     | Flexural strength test.   | 60  |
| 48                     | Compressive strength test of broken concrete specimens.                               | 20  |
| <b>Concrete Blocks</b> |   |     |
| 49                     | Compressive strength test.  | 35  |
| 50                     | Determination of the percentage of chloride.  | 100 |
| 51                     | Determination of the percentage of Sulfate.   | 100 |
| 52                     | Compressive strength test of concrete blocks.   | 30  |

|                           |  |                               |
|---------------------------|--|-------------------------------|
| 53                        | Determination of the bulk density of concrete blocks.    | 35                            |
| 54                        | Determination of water absorption of concrete blocks.    | 70                            |
| 55                        | Determination of density of concrete blocks.             | 30                            |
| 56                        | Determination of moisture content of concrete blocks.    | 80                            |
| 57                        | Determination of water absorption of blocks.             | 60                            |
| <b>Concrete Tiles</b>     |  |                               |
| 58                        | Flexural strength test of concrete tiles.                | 100                           |
| 59                        | Water absorption test of concrete tiles.                 | 120                           |
| 60                        | Determination of density of concrete tiles.              | 30                            |
| 61                        | Determination of the weight of concrete tiles.           | 20                            |
| <b>Concrete Pavements</b> |  |                               |
| 62                        | Flexural strength test of concrete kerbs.                | 120                           |
| 63                        | Water absorption test of concrete kerbs.                 | 100                           |
| 64                        | Determination of density of concrete kerbs.              | 35                            |
| 65                        | Determination of the weight of concrete kerbs.           | 20                            |
| 66                        | Compressive strength test of concrete kerbs.             | 100                           |
| <b>Concrete</b>           |  |                               |
| 67                        | Ultrasonic Pulse Velocity test at the construction site. | 80 per hour                   |
| 68                        | Rebar detection test at the construction site.           | 80 per hour                   |
| 69                        | Abrasion resistance test.                                | 1,500 for every three samples |
| 70                        | Tensile splitting strength test.                         | 35                            |
| 71                        | Slump test for fresh concrete.                           | 30                            |
| 72                        | Determination of cement percentage of fresh concrete.    | 120                           |

|              |   |                         |
|--------------|---|-------------------------|
| 73           | Fresh concrete mix design.  | 500 for each experiment |
| 74           | Determination of temperature of fresh, unhardened concrete.       | 15                      |
| 75           | Determination of chloride content in hardened concrete.           | 140                     |
| 76           | Determination of Sulfate content in hardened concrete.            | 200                     |
| 77           | Determination of sodium oxide and potassium oxide percentage.     | 200                     |
| 78           | Determination of cement type in concrete.                         | 600                     |
| 79           | Determination of cement percentage in concrete.                   | 600                     |
| <b>Water</b> |   |                         |
| 80           | Determination of chlorides percentage in water.                   | 60                      |
| 81           | Determination of the Sulfate percentage in water.                 | 90                      |
| 82           | Determination of water acidity (pH).                              | 50                      |
| 83           | Determination of the percentage of dissolved substances in water. | 60                      |
| <b>Tiles</b> |   |                         |
| 84           | Determination of water absorption.                                | 150                     |
| 85           | Flexural strength test.   | 150                     |
| 86           | Determination of partial water absorption.                        | 150                     |
| 87           | Dimensional measurement test.                                     | 50                      |
| 88           | Determination of chemical resistance.                             | 300                     |
| 89           | Adhesion strength test for tiles.                                 | 150                     |
| 90           | Determination of heat resistance.                                 | 200                     |
| <b>Soil</b>  |   |                         |

|     |   |     |
|-----|---|-----|
| 91  | Moisture content test.  | 50  |
| 92  | Liquid limit test.  | 90  |
| 93  | Shrinkage test.   | 80  |
| 94  | Plastic limit test.   | 60  |
| 95  | Granules specific gravity test.   | 60  |
| 96  | Sieve analysis test wet.  | 130 |
| 97  | Sieve analysis test dry.  | 110 |
| 98  | Determination of the dry density and moisture percentage using a (4.5) kg hammer.     | 220 |
| 99  | Determination of the dry density and moisture percentage using a (2.5) kg hammer.     | 250 |
| 100 | California Bearing Ratio (CBR) Test – soaked sample.                                  | 350 |
| 101 | California Bearing Ratio (CBR) Test – unsoaked sample.                                | 300 |
| 102 | Determination of in-situ soil density.  | 80  |
| 103 | Sulfate content test by acid extraction.  | 160 |
| 104 | Determination of the percentage of organic matter.                                    | 70  |
| 105 | Determination of pH.  | 60  |
| 106 | Measuring the percentage of soil swelling after being soaked in water for (24) hours. | 100 |
| 107 | Measuring the percentage of soil swelling after being soaked in water for (96) hours. | 150 |
| 108 | Manual vibrator test.   | 300 |
| 109 | Determination of the percentage of carbonate in soil.                                 | 130 |
| 110 | Determination of moisture percentage by calcium carbonate method.                     | 60  |

|                |   |                |
|----------------|---|----------------|
| 111            | Soil density test in the laboratory.  | 60             |
| 112            | Maximum Dry Density (MDD) Test.   | 160            |
| 113            | Finding the quantity of fine materials that are finer than a (75) micron ( $\mu\text{m}$ ). | 80             |
| 114            | Chloride content test by acid extraction.   | 140            |
| 115            | Determination of the Loss on Ignition (LOI) of soil.  | 100            |
| 116            | Soil bearing capacity test in situ in situ.   | 1,000          |
| 117            | Determination of the percentage of organic matter lost by ignition.                         | 100            |
| <b>Bitumen</b> |   |                |
| 118            | Determination of the softening point.   | 140            |
| 119            | Determination of penetration ratio.   | 120            |
| 120            | Determination of the specific gravity ratio.  | 140            |
| 121            | Determination of the percentage of solubility.  | 120            |
| 122            | Determination of the flash point.   | 140            |
| 123            | Determination of water content.   | 120            |
| 124            | Distillation test.  | 140            |
| 125            | Determination of the duration of drying.  | 150            |
| 126            | Determination of the percentage of solids.  | 150            |
| 127            | Determination of color.   | 150            |
| <b>Iron</b>    |   |                |
| 128            | Tensile test.   | 200 per sample |
| 129            | Re-bending test.  | 150            |
| 130            | Bending test.   | 100            |
| 131            | Carbon percentage detection test.   | 100            |
| 132            | Sulfur percentage detection test.   | 100            |

|                 |   |     |

| 133             | Phosphorus percentage detection test.   | 100 |
| 134             | Determination of the percentage of nitrogen.                                  | 100 |
| <b>Pigments</b> |   |     |
| 135             | Determination of the percentage of volatile and non-volatile substances.      | 150 |
| 136             | Determination of the abrasion resistance ratio.                               | 250 |
| 137             | Determination of the adhesion ratio.  | 150 |
| 138             | Determination of the percentage of pigment.                                   | 150 |
| 139             | Determination of the percentage of specific gravity of paints.                | 100 |
| <b>Cement</b>   |   |     |
| 140             | Determination of specific gravity of cement.                                  | 100 |
| 141             | Determination of initial and final setting time of cement.                    | 150 |
| 142             | Compressive strength test of cement mortar cubes.                             | 350 |
| 143             | Fineness test of cement.  | 120 |
| 144             | Soundness test of cement.   | 150 |
| 145             | Determination of insoluble residue percentage.                                | 120 |
| 146             | Determination of porosity of cement.  | 120 |
| 147             | Determination of Silicon Dioxide (SiO <sub>2</sub> ) percentage.              | 100 |
| 148             | Determination of Aluminum Oxide (Al <sub>2</sub> O <sub>3</sub> ) percentage. | 100 |
| 149             | Determination of Iron Oxide (Fe <sub>2</sub> O <sub>3</sub> ) percentage.     | 100 |
| 150             | Determination of Calcium Oxide (CaO) percentage.                              | 100 |
| 151             | Determination of Magnesium Oxide (MgO) percentage.                            | 100 |
| 152             | Determination of Sodium Oxide (Na <sub>2</sub> O) percentage.                 | 100 |

|                       |  |                  |
|-----------------------|--|------------------|
| 153                   | Determination of Potassium Oxide (K <sub>2</sub> O) percentage.            | 100              |
| 154                   | Determination of Sulfur Oxide (SO <sub>3</sub> ) percentage.               | 100              |
| 155                   | Consistency test.  | 100              |
| 156                   | Determination of specific gravity.   | 100              |
| 157                   | Determination of Sulfur percentage.  | 100              |
| 158                   | Determination of density.  | 200              |
| 159                   | Determination of Chloride percentage.                                      | 150              |
| 160                   | Determination of Loss on Ignition (LOI).                                   | 120              |
| <b>Mortar/plaster</b> |  |                  |
| 161                   | Air content test.  | 60               |
| 162                   | Preparation of specimens for compressive strength test (cube specimens).   | 50 for each cube |
| 163                   | Preparation of specimens for flexural strength test (prismatic specimens). | 55               |
| 164                   | Flexural strength test of mortar.  | 25               |
| 165                   | Compressive Strength Test of Mortar.                                       | 20               |
| <b>Waterproofing</b>  |  |                  |
| 166                   | Adhesion strength test of waterproofing material.                          | 200              |
| 167                   | Dimensional measurement test of waterproofing material.                    | 50               |
| 168                   | Determination of the mass of waterproofing material.                       | 100              |
| 169                   | Tensile strength test of waterproofing material.                           | 200              |
| 170                   | Elongation test of waterproofing material.                                 | 200              |
| 171                   | Heat resistance test at (100) °C for 2 hours.                              | 100              |
| 172                   | Thickness test of waterproofing material.                                  | 100              |

|  |  |                 |
|--|--|-----------------|
| 173  | Determination of water absorption of waterproofing material.   | 100             |
| 174  | Determination of density of waterproofing material.  | 60              |
| 175  | Abrasion resistance test of waterproofing material.  | 150             |
| <b>B. On-Site Testing:</b>   |  |                 |
| 176  | Dispatch of the technician from the laboratory to the construction site located at a distance not exceeding (50) km from the laboratory. | 50 per hour     |
| 177  | Dispatch of the technician from the laboratory to the construction site located at a distance exceeding (50) km from the laboratory.     | 100 per hour    |
| <b>C. Copies of Project Drawings for Electrical Works:</b>                               |  |                 |
| 178  | Electronic copy of the internal lighting drawings.   | 200 per drawing |
| 179  | Electronic copy of power distribution drawing.   | 200 per drawing |
| 180  | Electronic copy of general site layout drawing for electrical works.   | 150 per drawing |
| 181  | Electronic copy of other electrical work drawings.   | 150 per drawing |
| <b>D. Registration of Consultants Contractors, and Suppliers for Construction Works:</b> |  |                 |
| 182  | Registration in the register of consultants, contractors, or suppliers for construction works.   | 500             |
| 183  | Amendment of the registration in the register of consultants, contractors, or suppliers for construction works.                          | 250             |
| 184  | Registration in the register of soil investigation contractors.  | 500             |

|  |   |              |
|--|---|--------------|
| 185  | Issuance of a To Whom It May Concern Certificate for the consultant, contractor, or supplier for construction works.  | 100          |
| 186  | One-time registration in the Petroleum Products Trading Register.   | 500          |
| 187  | Registration of the contractor for each residential project separately.   | 500          |
| <b>E. Re-Review of Designs for Contractors and Sub-Contractors in the Absence of a Consultant:</b> |   |              |
| 188  | Second submission of designs for building construction, building maintenance, or building additions projects.   | 500          |
| 189  | Second submission of designs for road construction or maintenance projects.   | 3,000        |
| 190  | Second submission of designs for construction projects with a value not exceeding (AED 50,000,000) fifty million Dirhams.   | 500          |
| 191  | Second submission of designs for construction projects with a value between (AED 50,000,000) fifty million Dirhams and (AED 100,000,000) one hundred million Dirhams. | 1,000        |
| 192  | Second submission of designs for construction projects with a value exceeding (AED 100,000,000) one hundred million Dirhams.  | 2,000        |
| <b>F. Supervision of Construction Sites:</b>   |   |              |
| 193  | Supervision of construction sites outside official working hours.   | 250 per hour |

| <b>G. Interviewing Engineers and Inspectors:</b>   |   |                  |
|--|---|------------------|
| 194  | Interviewing the engineer or inspector nominated by the consultant, supervising the construction project.   | 200              |
| <b>H. No Objection Certificates:</b>               |   |                  |
| 195  | Submission of an application to obtain or renew a No Objection Certificate.   | 100              |
| 196  | Issuing a No Objection Certificate.   | 1,000            |
